

Military Armament Corporation

MAC M-10

submachine gun (9 MM or .45 cal.)

the MAC M-10 system

Compact firepower in the most reliable, rugged, simple design available in the world today. Easily controlled in semi or full automatic. Rapid rate of fire. Adapted for its sound and flash suppressor, making it the ideal personal weapon for special clandestine operations. Simplicity of design makes it easy to use, clean and assemble with little training.

The MAC M-10, available in either 9 mm or .45 cal., shown above with five 32 round magazines, cleaning rod, suppressor and sling. (The M-10 .45 comes with a loading tool.) Additional data on reverse.

Military Armament Corporation

MAC M-10

The MAC M-10 is a heavy duty submachine gun yet is smaller, lighter, more reliable and rugged than any weapon in the world today. It's high rate of fire (1000 rounds per minute rate) and simplicity of design were engineered to meet today's requirements. Thoroughly tested and sold throughout the world, the M-10 has earned a reputation for reliability and ruggedness under the most adverse conditions of sand, sea, mud and cold.
